

13) Question :

You entered the records for the Service Rep table in the order shown in Table 1–6 on the previous page, that is service reps 21, 45, 24, 37. What order will the records be in after you close and reopen the Service Rep table? Why?

Answer :

The records will be placed in the same order after you close and reopen the file . Because unless we make any changes to query , it won't change automatically .
